

CONTAINER REUSE

SIMPLIFY YOUR CONTAINER LOGISTICS

Feeling like transport of empty containers can be a waste of time?

This is why the **CMA CGM Group**, in partnership with **CONTAINER REUSE** platforms, offers a solution to end redundant empty moves by linking import flows with export needs.

YOUR BENEFITS

BE MORE EFFICIENT

By-pass needless pick-ups and drop-offs at the port terminal for truckers, importers and exporters*

OPTIMISE COSTS

Reduce costs to only what is necessary by avoiding redundant empty moves

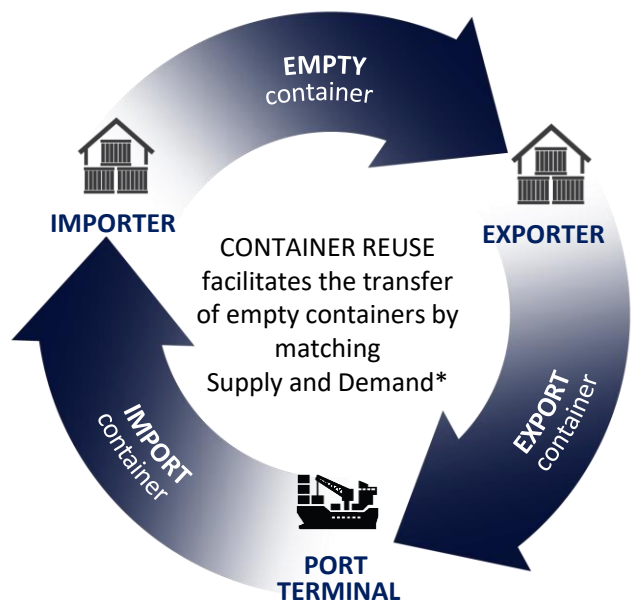

LOWER CARBON FOOTPRINT

Fewer truck trips and shorter distances

**If you are both an importer and exporter, you can choose to reuse your import container for exports via the platform*

HOW DOES IT WORK?

Enjoy Container Reuse in Malaysia, Singapore & Thailand via **avantida** by E2OPEN

Serve two shipments with 1 single truck trip:

- Avoid traffic congestions and constraints brought by depot opening hours
- Save 1 Depot gate charges for empty container pick-up;
Save 1 Depot gate charges for empty container return
- Save 2 trips to the container depot by no longer having to return and pick-up an empty container
